

FARM AND HOUSEHOLD ITEMS

We invite communications from all persons who are interested in matters properly belonging to this department.

For the Bloomfield Times. NEW BUFFALO, Pa., Jan. 27, 1870. Yellow Fat in Hogs.

Mr. Editor: Having seen several communications in THE TIMES in regard to yellow fat in hogs, I would say that Mr. M. Shatto, of Watts township, informed me that he had a breed of hogs for several years, that when killed the fat and lard present a yellow appearance. Mr. E. D. Wells, butcher of this place, killed some of the hogs for Mr. Shatto, and they think that it is in the breed of hogs, more than from feed or any other cause, that the fat is yellow. The only difference in the meat of this and other breeds, is that it is harder and not so tender as that of other breeds. Novus.

Get Leather Bits.

One of the most cruel things to dumb beasts is putting frozen iron bits into a horse's mouth. It is not only painful but a dangerous act. For every time living flesh touches a metal much below the freezing point, the latter extracts the heat from the former and freezes it. Thus a horse's mouth becomes frozen by the cold iron several times a day put into it; each time causing these freezings to go deeper and deeper, to end at last in extensive ulceration. With such a sore mouth the poor horse refuses to eat and pines away, which calls the horse doctor in.—They call it bots, glanders, horse-ail, &c., and go to crumming down poisonous drugs in big doses; and the next you know of the poor abused creature, he is truddled off to be food for fish or the crows. Many a valuable horse has been "mysteriously" lost, in just that way.

Thinking and human people avoid this by first warming the bits; but this is much trouble, and sometimes impossible as in night work like staging and physician's work. Now all this trouble and loss are entirely avoided as we have found on long trial, by getting the harness-makers to get leather bits for winter use, so made that no metal substance can touch the flesh. They are durable and cost only half a dollar. We wouldn't exchange ours for a gold one, if it couldn't be replaced. Don't fail to try it.

Heaves in Horses.

Seeing spearment and other articles recommended for horses prompts me to mention my experience with another valuable herb in the cure of this distressing and troublesome complaint. Feed no hay to the horse for thirty-six or forty-eight hours, and give only a pailful of water at a time. Then throw an armful of well-cured smartweed before him, and let him eat all he will. In all cases where the cells of the lungs are not broken down great relief if not a perfect cure will follow. I have seen a horse, with the heaves as bad as I ever saw, cured by one dose. Smartweed is valuable for many purposes, and should be laid away for use when needed.

Points of a Good Cow.

She's long in her face, she's fine in her horn, she'll quickly get fat without cake or corn; she's clean in her jaw, and full in her chin; she's heavy in the flank and wide in loin; she's broad in her rib, and long in her rump. A straight and flat back with never a hump; she's wide in her hips, and calm in her eyes; she's fine in her shoulders, and thin in her thighs; she's light in her neck and small in her tail; she's wide in her breast, and good at the pail; she's fine in her bone, and silky of skin; she's a grazier's without and butcher's within.

A Horse Breaking Its Halter.

To prevent a horse from breaking its halter, procure a small, hard, strong cord, from eight to ten feet long; put the harness on the horse; buckle the girth tight; make a slipping noose on one end of the cord and put it around the horse's tail, close to the body; slip the other through the terret and bit-ring, and hitch the horse to a post, and leave it to itself. Two or three lessons will cure any horse.—American Farmer.

Milkers versus Milking.

The quantity of milk drawn from a cow per annum depends more than some imagine upon the milker. The best cow in the world may soon be spoiled by careless and irregular milking, whereas as an ordinary animal may be made to yield much more of the delicious beverage than usual, by the right performance of this simple operation. To find a good cow is not an easy thing—but more easy than to find an accomplished milker.

THE ONLY RELIABLE CURE FOR DYSPEPSIA IN THE KNOWN WORLD!

DR. WISHART'S GREAT AMERICAN DYSPEPSIA PILLS and PINE TREE TAR CORDIAL are a positive and infallible cure for Dyspepsia in its most aggravated form and no matter of how long standing. They penetrate the secret abode of this terrible disease, and exterminate it, root and branch, forever. They alleviate more agony and silent suffering than tongue can tell. They are noted for curing the most desperate and hopeless cases, when every known means fails to afford relief. No form of dyspepsia or indigestion can resist their penetrating power.

DR. WISHART'S PINE TREE TAR CORDIAL

It is the vital principle of the Pine Tree, obtained by a peculiar process in the distillation of the tar, by which its highest medicinal properties are retained. It invigorates the digestive organs and restores the appetite. It strengthens the debilitated system. It purifies and enriches the blood, and expels from the system the corruption which scrofula breeds on the lungs. It dissolves the mucus or phlegm which stops the air passages of the lungs. Its healing principle acts upon the irritated surface of the lungs and throat penetrating to each diseased part, relieving pain and subduing inflammation. It is the result of years of study and experiment, and it is offered to the afflicted with the positive assurance of its power to cure the following diseases, if the patient has not too long delayed a resort to the means of cure:

- Consumption of the Lungs, Cough, Sore Throat and Breast, Bronchitis, Liver Complaint, Blind and Bleeding Piles, Asthma, Whooping Cough, Diphtheria, &c., &c.

A medical expert, holding honorable collegiate diplomas, devotes his entire time to the examination of patients at the office parlors. Associated with him are three consulting physicians of acknowledged eminence whose services are given to the public FREE OF CHARGE.

This opportunity is given by no other institution in the country.

Letters from any part of the country asking advice will be promptly and gratuitously responded to. Where convenient, remittances should take the shape of

TO CONSUMPTIVES.

THE Advertiser, having been restored to health in a few weeks, by a very simple remedy, after having suffered several years with a severe lung affection, and that dreaded disease, Consumption, is anxious to make known to his fellow-sufferers the means of cure. To all who desire it, he will send a copy of the prescription used (free of charge), with the directions for preparing and using the same, which they will find a SURE CURE FOR CONSUMPTION, ASTHMA, BRONCHITIS, etc. The object of the advertiser in sending the Prescription is to benefit the afflicted, and spread information which he conceives to be invaluable; and he hopes every sufferer will try his remedy, as it will cost them nothing, and may prove a blessing. Parties wishing the prescription, will please address Rev. EDWARD A. WILSON, 348 1/2 Williamsburg, Kings county, New York.

AMOS WOOLEY, M. D., of Kosciusco county, Indiana, says: "For three years past I have used ALLEN'S LUNG BALSAM extensively, in my practice, and I am satisfied that there is no better medicine for lung diseases in use."

NATHANIEL HARRIS, M. D., of Middlebury, Vermont, says: "I have no doubt it will soon become a classical remedial agent for the cure of all diseases of the Throat, Lungs, and the Bronchial tubes."

Physicians do not recommend a medicine which has no merits. What they say about

Mothers, Save Your Children!

No child need die of CROUP, if this Syrup is used in time: this is a fact demonstrated by experience. No family should be without this Syrup, as that fatal disease, CROUP, comes like a thief in the night, to steal away your little ones, when regular medical aid cannot be obtained.
